

Miscarriage, Stillbirth, and Early Infant Loss

Giving Voice to Silent Sorrow

I humbly invite you to tell your story.

- **Seeking participants for a research study exploring the journey of mothers that have experienced the loss of a child through miscarriage, stillbirth, or early infant loss.**
- **Participation would involve sharing your story through an individual, in-depth, in person interview with the researcher.**
- **Participation is completely voluntary but would be highly valued to add to the body of knowledge regarding perinatal bereavement.**

Explanation and Purpose of the Research:

This study explores the experience of mothers that have experienced miscarriage, stillbirth or infant loss during the neonatal period (first 28 days of life). Participation in this research will be valuable in helping us understand more about what mothers experience after losing a baby during pregnancy or early infancy. Your experiences are critical to understanding how
